EDUCATION

BS Computer Science

Forman Christian College University, Lahore.

09/2021- 07/2025

3.35*

Courses

- Deep Learning
- Data Science
- Web Development
- Software Engineering

Intermediate In Engineering

Forman Christian College Lahore

09/2020 - 04/2021

Courses

- Introduction To Programming
- Introduction To Databases

PERSONAL PROJECTS

Face Recognition Attendance System (08/2021 - 02/2021)

- Designed a Face Recognition System using YOLO-V8, using core Deep Learning Principles.
- Used these elements to create an effective and streamlined solution for attendance backlog.

Purrfect-Pair App(08/2023 - 02/2024)

- Drafted a documentation for a Pet Community oriented App, using software engineering concepts.
- UML diagrams, software development lifecycles, and algorithms provided a structured and detailed blueprint for the application's design and functionality.

Stellar Scholar-Data-Scraping (02/2023 - 02/2024)

- Stellar Scholar is a game-based learning app made in Unity 3D whose central concept revolves around inspiring children to study and explore rocket and space sciences.
- This game plans to intrigue young minds to think outside the box and explore multi stream universe.
- Applied various data preprocessing and EDA skills to make the use of required databased for the game fault free.

SKILLS

C

JS

Python

Figma

Blender

Yolo-V8

HTML - CSS

UI Design

Power BI

Deep Learning

Data Analysis

Data Manipulation

Data Pre-processing

Image Processing

ACHIEVEMENTS

Sustainability Champion(08/2023 - 02/2024)

Served 80 Hours In Community Service & Showed Exemplary Performance, Securing A Cryptographic Badge.

CERTIFICATES

Web Design: Art and Concepts Specialization

Web Design and Development with Figma and Word-Press

Intro to Deep Learning

Stanford

Data Analytics
